### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Matthew Graham on 8/17/05.

The application has been amended as follows:

Claim 21, lines 11-12, "shoe contacting an outer surface of the constant force spring" has been changed to ---shoe contacting an outer surface of a cam---;

Claim 22, line 1, "The apparatus of claim 6" has been deleted.

### ***Allowable Subject Matter***

Claims 8, 11, 13-40 and 44-54 are allowed.

The following is an examiner's statement of reasons for allowance: In regard to claims 8, 11, 13-23 and 44-54, the prior art fails to teach the means for providing the friction force comprises a shoe contacting an outer surface of the constant force spring/cam. In regard to claims 24-34, the prior art fails to teach the shoe contacting the first cam surface at a sliding contact point. In regard to claims 35-40, the prior art fails to teach the method for urging the shoe against a first cam surface of the came and deforming the resilient member so that the shoe is biased against the first cam surface at a sliding contact point while the roller is contacting the first cam surface at a rolling contact point.

Art Unit: 3632

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
